

By the Numbers

4,000 Experienced employees

35 Years servicing the residential electrical contracting market nationwide

3 Our rank among electrical contractors nationwide

Why you benefit

- Our ability to provide complete turnkey electrical systems simplifies your operation
- Our status as the nation's largest residential electrical contractor equates to a partner you can trust
- Our broad coverage means we can service your needs in virtually every neighborhood

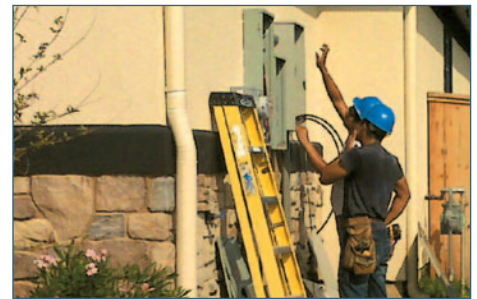

Overview

In our fast-paced world, we rely on the electrical systems in our homes like never before. Home networks. Data and voice communications. Life safety systems.

As the nation's largest residential electrical contractor, IES is your one-stop resource for all the electrical and communication systems that power progress in your home life.

With IES, you get a name you can trust—our locations have served the country for more than 35 years—with the experience and expertise that come with an industry-leading safety record.

With a stellar safety record, proven track record with some of the nation's largest home builders, strong financial background and extensive buying power, IES offers outstanding service and value to ensure your home is safe and secure.
